

north-central Nebraska. It has had the support of the four previous Nebraska Governors and is supported by Governor Nelson. And it is presently about 80 percent completed and the remaining 20 percent will be developed as soon as possible and the remaining money is very critical, needed to finish the project. And President Bush's budget for '91-92 appropriated \$21,350,000 to continue the project and the project already has been expended to build the Calamus Dam and most of the irrigation project. So, therefore, we're asking this Legislature to support the Twin Loup Project and the Nebraska Legislature urges the respective subcommittees on Energy, Water Development of the Appropriations Committee and the House of Representatives to appropriate the sufficient funds to complete the Calamus Dam project and ask these resolutions be transmitted to Representative Bill Barrett and also the respective Appropriations Committee. And I might also add a little by-line to this. There have been several years that we've kind of put on a little summer vacation for the Calamus. We're going to do it again this year. Those of you that have not been to the Calamus project, I'm sure you would really enjoy it. It's the largest sand bottom lake in the state, good fishing, good boating and a good rodeo, so hope to see you at Burwell this summer and the dates will be forthcoming. Thank you.

PRESIDENT MOUL: Thank you, Senator Rogers. Is there anyone wishing to debate this motion? Seeing none, do you have closing? Closing is waived. We'll proceed to vote on the motion to adopt LR 30. All those in favor please vote aye, opposed nay. Have you all voted? Please record, Mr. Clerk.
